DETAILED ACTION

Receipt is acknowledged of the Amendment filed March 7, 2006.

Allowable Subject Matter

Claims 1,3,4,6-34,36-38,40-42,44,45 and 57-60 are allowable over the prior art of record.

The following is a statement of reasons for the indication of allowable subject matter: Although Knowles and Li et al. teaches single event upset hardened latch circuit, one of ordinary skill in the art would not have been motivated to modify the teaching of Knowles and/or Li et al. to further includes, among other things, the specific of the system wherein when at least one of the first and second redundant signals is in unexpected states, then both the first and second feed-forward devices continue to provide their respective feed-forward signals consistent with the last expected state of the redundant signals (claim 1), the specifics of first and second feedback-tristate inverters receiving both of the first and second feed-forward signals respectively, and the first feedback-tristate inverter responsively feeding back to the first redundant signal a first feedback signal having the same state as the expected state of the first redundant signal and the second feedback device responsively feeding back to the second redundant signal a second feedback signal having the same state as the expected state of the second redundant signal (claim 48), the specifics of the system wherein when either the first redundant signal, the second redundant signal, the input signal to the first feedback device, or the input signal to the second feedback device are in an unexpected state, then the first and second feed-forward devices and the first and

second feedback devices are all still operable to not change the current state of their respective signals (claims 57-60).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
